2. External organizations, NGOs or associations

- **Scope of projects**

1. Access to reproductive healthcare: initiatives aiming to expand women's access to safe, effective and modern methods of contraception and reproductive healthcare services
2. Education: initiatives aiming to provide educational opportunities for women worldwide
3. Arts: artistic initiatives encouraging communities to support the empowerment of women

- **Evaluation**

The following criteria will be taken into account to award the grants:

1. Alignment of the projects with the HRA Pharma Foundation's scope
2. Demonstration of feasibility
3. Ability of the organization or association to implement the projects and manage the allocated funds
4. Existing criteria to assess the outcome of the projects

- **Financial support**

- The amount of financial support will be determined by the Board of the Foundation

- **Timeline**

1. Project submission: March and September
2. Project selection: May and November

- **Information to be provided about each project**
 1. Objectives of the project
 2. A short description of the project including:
 - Where the project will be conducted
 - Which specific population is concerned
 - What the various resources involved will be: human, material and financial
 - How the resources will be allocated
 - Planning with milestones
 3. Outcome indicators
 4. Once the projects' goals have been achieved, beneficiaries are expected to provide the Foundation with reports describing the use of funds and the outcome of their respective projects
